

A contributioin in the amount of \$2,000 was inadvertantly omitted from the 48 hour Notice Period Report for 10/19/06 - 11/04/06. The check was received during that period, however not including the receipt of the check on the report was an unintentional oversight by the committee. When the mistake was discoverd the committee incorrectly included the receipt of such in the end of the year report instead of amending the 48 hour report.
